Friday April 9, 2010

9:00 am to 12:00 noon

## **New Copper Clay Pendant and Earrings**

Discover New Metal Clay that came out in Spring of 2009. Copper Clay from ACW offers metal clay that is less expensive than the Fine silver to use & can be fired in your kiln without special pans or firing medium. It can also be torch fired! Explore the potentials of adding copper clay to your studio. It can be used for jewelry, sculptures, & accents added to your ceramic work. Learn how to texture, slip solder, construct & fire this amazing medium. Copper clay can be combined with the other Metal Clays to add dramatic contrasts to your unique creations. All tools & materials provided to finish a pendant & earrings {25gm. copper clay}. There will be a demonstration on torch firing, but class work will be kiln fired. Please allow for firing time. Items may need to be picked up the next day, or arrangements made for delivery. Sizes will vary depending on chosen design.

**Class Fee: \$65**    Class Limit: 15
