

**Teacher: Trish Jeffers-Zeh**

Sunday April 11, 2010

10:00 an to 1:00 pm

**Fine Silver Pendant** with Set Stone or Dichroic Glass

Focus is on using The Torch to fire silver clay & what stones can be used for this process. You don't need to have a kiln to fire some glass & many stones in the Metal Clay. First you will learn the techniques to create a beautiful pendant. Then you will attach a bail for hanging & set a 3-4 mm stone or a fused dichroic cabochon {available for purchase}. When your pendant is all cleaned if you have time you will torch fire to sinter the clay to solid fine silver. Next begins the polishing process in the tumbler. Materials {10gm. silver clay, extra will be available for purchase} & tools needed for the project will be provided. Approx. 1" x 1"

**CLASS FEE: \$85      Class Limit: 15**
