Fired Arts Workshop

3-D Raku & Clay-Puzzled Trees

3-D Raku & Puzzled Trees

Learn how to create a dimensional product and combine it with RG600 Raku glaze on mold-cast ware and Raku fire in an electric kiln to achieve colorful gloss and matte finishes. While the kilns fire, you'll have the opportunity to construct several clay-puzzled trees using puzzler cones. Choose to make extruder trees, textured trees or both! It's possible some Raku items may need to be picked up later in the day or the following morning, depending how quickly the kilns fire. We'll ship your items free if you can't stick around. All bisque, clay, glazes, brushes and tools are included in the workshop fee.

Class Fee: \$79 Bring take home box with packing materials.

Fired Arts Workshop

Clay-Banded Texture

Clay-Banded Textured Puzzling

Learn how to create a large bowl with moist clay and use simple pottery tools to smooth the surface before blending layers of colored clay using a banding wheel. Inexpensive wooden sculpting tools are then used to carve textures, designs and unique edges in the bowl. You'll also construct a three-dimensional shape (from a selection of many puzzler molds), blend layers of colored clays and carve designs with pottery tools. All supplies, brushes and colors included in workshop for participants to create two clay pieces, ready for firing.

Class Fee: \$79 Bring take home box with packing materials.
